

A REALTOR'S GUIDE TO MORTGAGE

PRE-QUALIFICATION 101

Always have clients get pre-qualified before house hunting.

This helps to identify a price range, down payment amount, and set realistic expectations.

Always submit a pre-qualification letter with the offer.

The offer will look more attractive to the seller.

Borrowers can easily apply online.

They will need to verify aspects of their finances and history, such as income and employment, assets, and credit.

A pre-qualification can take as little as 15 minutes.

Our online application makes it quick and easy, as long as the borrower provides all necessary information.

A mortgage pre-qualification is best qualified by pulling credit.

This likely affects the borrower's credit score, however, very little.
